DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed. The following is an examiner's statement of reasons for allowance:

In a crowded art, the closest representative art appears to be US 5,360,934, cited by applicant in the IDS. US 5,360,934, like many related references, teaches the catalytic hydrogenation of various aromatic amines to yield the corresponding cycloaliphatic amines (abstract). In common with other references, however, it is silent regarding the problem of hydrogenating the instant specific mixture of compounds (comprising 4,4'-MDA and a mono-N-methyl derivative) where the mono-N-methyl derivative is the secondary component, such that hydrogenation of 4,4'-MDA is selectively enhanced. The instant method directly addresses this problem. The examiner finds the results of the instant examples particularly persuasive.

The cited prior art neither teaches nor suggests the instant process. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the processes of the prior art in order to arrive at that of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Davis whose telephone number is 571-272-0638. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
